Frederick P. Haas, Esq.
General Counsel
Liggett & Myers Tobacco Company
630 Fifth Avenue
New York, N.Y. 10020

Dear Fred:

Bob Griffith tells me that he understood from Bill Bates that, while it was agreed we might send to the B.A.T. the Arthur D. Little reports on "The Nature of Cigarette Smoke" and "Chemical Components of Cigarette Smoke and Biologic Activity," the epidemiology study was not to be so treated and therefore perhaps should not go forward to the B.A.T.

I have no wish to twist any arms, but we here think so highly of all of this work that I would like to furnish the epidemiology study to B.A.T. as well. It goes without say that if there are reasons why that is not desirable I do not wish to labor the point.

May I have your views?

Sincerely yours,

AY me
